April 23-27, 2018

Wee Disciples Classroom News:

We have entered the last week of April. How quickly the year is flying by. We will begin our last unit of study for the school year in the coming week. We will focus on birds in the next few weeks to prepare for our upcoming field trips on May 9 & 10. This week we focus on what make a bird a bird. Essentially, feathers are what group all birds together. We will talk about the parts of a bird and what a bird uses these parts for. We are going to put out some bird feeders for some scientific observation of birds outside the classroom.

Feel free to send in any bird feathers, nests, etc. that you have at home to share with the class.

God's Blessings to you all,

Karen Rohrer, Julie Elsts, and Karen Ross
